Notice to Cure

Dear Ms. Oestreich:

In accordance with the terms of the Maricopa Health Plan (MHP) Contract with the Arizona Health Care Cost Containment System (AHCCCS), failure to meet Performance Standards specified in the Contract (Section D-24, Performance Standards) may result in AHCCCS enforcement of the terms by any and all means established in the Contract (Sections D-24 and D-72, Sanctions).

In July 2007, MHP was advised that, if it failed to meet the Minimum Performance Standard (MPS) for any Performance Measure related to clinical quality based on the measurement period of CYE 2007, AHCCCS may impose a sanction in the amount of \$100,000 for each measure for which the Contractor's rate was below the MPS. AHCCCS also advised MHP that it may pend any sanction(s) from the CYE 2007 measurement period until results for the measurement period of CYE 2008 are reported in 2009.

Due to the circumstances described below, MHP is hereby issued a Notice to Cure.

MHP has failed to meet Minimum Performance Standards for the following Clinical Quality Performance Measures for the Medicaid population, based on the measurement period of CYE 2007:

- Well Child Visits in the First 15 Months of Life
- Well Child Visits in the Third through Sixth Years of Life
- Children's and Adolescents' Access to Primary Care Practitioners (PCPs), 12 – 24 Months
- Children's and Adolescents' Access to PCPs, 25 Months – 6 Years
- Children's and Adolescents' Access to PCPs, 7 – 11 Years
- Children's and Adolescents' Access to PCPs, 12 – 19 Years
- Annual Dental Visits
- Adolescent Well-Care Visits
- Timeliness of Prenatal Care
- Cervical Cancer Screening
- Adults' Access to Preventive/Ambulatory Health Services, 20 – 44 Years
- Adults' Access to Preventive/Ambulatory Health Services, 45 – 64 Years

The attached document shows all of MHP's rates for Healthcare Effectiveness Data and Information Set (HEDIS) Performance Measures for the three most recent measurement periods, compared with the applicable Minimum Performance Standards. Future sanctions may apply to measures of the Medicaid population for which the Contractor did not meet the MPS for the measurement period of CYE 2007, reported in 2008. For childhood immunization measures, a sanction may be applied only to the 4:3:1:3:3 series, rather than to measures of individual vaccines or other series.

In August 2007, MHP was required to submit to AHCCCS a thorough evaluation of the corrective actions currently in place for measures for which it had not met the MPS, including Children's Access to PCPs, Adolescent Well Care Visits, Timeliness of Prenatal Care, Breast Cancer Screening, Cervical Cancer Screening and Adults' Access to Preventive/Ambulatory Health Services. **Using the same format, MHP must resubmit its Corrective Action Plans (CAPs) and Evaluations for Children's and Adolescents' Access to PCPs (by age group), Adolescent Well Care Visits, Timeliness of Prenatal Care, Cervical Cancer Screening and Adults' Access to Preventive/Ambulatory Health Services (by age group).** It should document the status of all CAP activities to date, any additional interventions implemented since August 2007, an evaluation of the effectiveness of all activities/interventions based on analysis of data and trends, and a determination as to whether the intervention will continue or be replaced with another intervention in order to improve the effectiveness of the CAP.

MHP also must submit new CAPs, in the required format, with an evaluation of all interventions currently in place to improve the following measures:

- Well Child Visits in the First 15 Months of Life
- Well Child Visits 3 through 6 Years of Age
- Annual Dental Visits

All required Corrective Action Plans must be submitted to the AHCCCS Division of Health Care Management (DHCM), Clinical Quality Management (CQM) Unit, by February 27, 2009.

In addition, AHCCCS may impose a sanction in the amount of \$50,000 for each measure for which the Contractor's rate is below the MPS, based on the CYE 2007 measurement period, for a total sanction amount of \$600,000. AHCCCS may abate the sanctions, based on results for the measurement period of CYE 2008, which will be reported in 2009. If, at that time:

- the Contractor has failed to meet the MPS for any measure for both years, AHCCCS will assess a sanction in the amount of \$100,000 per measure (\$50,000 per measure, per year).
- the Contractor did not meet the MPS for the measurement period of CYE 2007, but improves its rate for the measurement period of CYE 2008, AHCCCS will not impose a sanction for that measure.
- the Contractor met the MPS for the measurement period of CYE 2007, but fails to meet the minimum standard for the measurement period of CYE 2008, AHCCCS may impose a sanction in the amount of \$50,000 per measure.

If you have any questions about this matter, please contact Kim M. Elliott, PhD, CPHQ, Administrator, Clinical Quality Management, at (602) 417-4782.

Sincerely,

Michael Veit
Contracts and Purchasing Administrator

37	Childhood Immunizations - VZV, KidsCare	86.2	77	97.9	77	97.6	86	N/A due to HEDIS change

Notes:

* Programming of these measures for reporting in 2007 and 2008 was modified to better conform to HEDIS.

Rates for dental services for 2006 and 2007 are based on ages 4 to 21, while rates for 2008 are based on ages 2 to 21

Immunization rates reported in 2008 reflect less restrictive HEDIS criteria on timing of most antigens

Several measures did not have enough members to measure because of continuous enrollment requirement of more than one year.
